

Person ID	Problem	App Name	Likes	Don't likes	Improvements	Comments
1	News aggregator	Daily Hunt	Diverse news sources, regional language support.	Invasive ads, occasional slow loading.	Enhanced ad experience, smoother performance.	Valuable for staying updated on news in multiple languages.
2	Food Delivery	Zomato	Wide restaurant choices, user-friendly interface, reviews and ratings.	Inconsistent delivery times.	Enhance delivery time accuracy, improve app performance.	Great for discovering new restaurants, but service quality can be more consistent.
3	Online Shopping	Myntra	Wide variety of fashion choices, frequent sales, and discounts.	Complex return process, cluttered app interface.	Simplify the return process, enhance search filters, and reduce app clutter.	Great for trendy fashion, but needs smoother returns and a more user-friendly interface.
4	Personal Loan	Slice	Will get loan instantly.	Provides loan to non eligible person also.	Provide loans for only good credit score candidates.	Needs more merchant options and improved stability.
